## ACKNOWLEDGEMENT

In the name of Allah, The Most Gracious, The Most Merciful and regards to our Holly Prophet Muhammad, peace be upon him.

First of all, I would like to take this opportunity to express my most sincere appreciation and gratitude to my supervisor, Puan Nor Atikah Shamsudin. Thanks a lot for her helps, comments, advice and encouragement during the preparation of this project.

Not forgotten to Puan Elaiza as a lecturer for this subject (Problem Project Formulation) for her guidance to write this thesis report and her support to make this project success. Special thanks dedicated to Puan Norita Salleh, group Account/ Assistant Sales who gives information about Al-Fajr (M) Sdn Bhd.

I also want to extend my appreciation to my beloved mother and siblings for their support, encouragement, understanding and kindness and who always pray for my success. Thanks also to my housemates, friends and colleagues who gave advice, help and cooperation during the development of this project.

Praise only to Allah SWT for His bounty and blessing showers upon us.

## ABSTRACT

Web site and system computerization is the most popular medium used by organizations to promote their products and services. The system is developed for Al-Fajr (M) Sdn Bhd. The system is very useful for the user because it may change manual conventional method to computerized system. The purpose of this project is to develop an online ordering system that helped the user to access information and order the products via Internet easily. Besides that, it is also allowed the customer to gain information about Al-Fajr (M) Sdn Bhd. Previously; the customers have to go to Batu Caves or headquarters' to make an order. By having this system, it would provide better services to the customer. This system was built by using Macromedia UltraDev4 and also multimedia elements to make it more interesting.
