**APPLYING ENTERPRISE
ARCHITECTURE FRAMEWORK INTO
SOCIAL FRAMEWORK: CASE STUDY
OF E-KARIAH COMMUNITY PORTAL**

NAQUIDDIN ABD AZIZ

Thesis submitted in fulfillment of the requirements for
**Bachelor of Science (Hons.) in Information System
Engineering**

Faculty of Computer and Mathematical Sciences

MAY 2009

ACKNOWLEDGEMENT

In the name of Allah, the most gracious and the most merciful for without Him, it is impossible for me to complete my thesis as a partial fulfillment of the requirement for the degree of Bachelor of Science (Hons) Information System Engineering.

I personally would like to convey my sincere thanks to my respected lecturer and supervisor, Prof Madya Dr. Norlaila Mohd Noor, who had spent her time, patience, dedication and also for her professional guidance and encouragement in the process of completing this thesis.

In addition, I would like to express my sincere appreciation to JAIS Information Technology department officer, the kariah member of Surau Seksyen 8, Dr. Mohd Dani Mohamad, lecturer from Centre of Islamic Studies and my friends for their assistance to provide initial information related to how to get financial assistance through collaboration with government and private agencies to conduct mosque's activities.

Finally, I owe a great deal of thanks to my family members particularly my mom and dad for their moral support and love that have given me the strength to complete this thesis successfully.

ABSTRACT

The objective of this research is to explore the importance applying enterprise architecture framework into social architecture, based on case study of E-Kariah Community Portal. In this research, the researcher will define enterprise architecture and social architecture. Then the researcher will identify suitable component from both architecture that deemed appropriate for the case study of E-Kariah Community portal. Then the researcher will apply the solution into the E-Kariah Community Portal. The researcher also will identify issues that take place during the research and suggest solution to the issues arise.

TABLE OF CONTENTS

	PAGE
DECLARATION	ii
ACKNOWLEDGEMENT	iii
ABSTRACT	iv
TABLE OF CONTENT	v
LIST OF TABLES	viii
LIST OF DIAGRAMS	viii
CHAPTER ONE: INTRODUCTION	
1.0 Introduction	1
1.1 Research Background	1
1.2 Problem Statement	2
1.3 Research Objectives	3
1.4 Research Scope	3
1.5 Significance of the Study	3
1.6 Summary	3
CHAPTER TWO: LITERATURE REVIEW	
2.0 Introduction	4
2.1 Definition of Enterprise Architecture	4
2.2 Definition of Zachman Framework	4
2.3 Definition of Stakeholder	5

2.4	Definition of Community	7
2.5	Definition of E-Community(also known as Virtual Community and Online Community)	8
2.6	Types of E-Community	14
2.7	Definition of Online Community Framework	17
2.8	Differentiation between Computer Supported Cooperative Work (CSCW) with Social Community	21
2.9	Definition of E-Kariah	22
2.10	Differences between Masjid (Mosque) and Surau	23
2.11	Proposed Business Model of E-Kariah	23
2.12	Definition of Code of Ethic	25

CHAPTER THREE: METHODOLOGY

3.0	Introduction	27
3.1	Research Approach and Methodology	27
3.2	Problem Identification and Planning	29
3.3	Requirement Analysis	29
3.3.1	Primary Data	30
3.3.2	Secondary Data	32
3.4	Framework Proposal	23
3.5	Framework Design	33
3.6	Summary	34
