FARM FRESH

Farm fresh was established by Loi Tuan Ee. Ever since growing up in a small town in Perak, Loi Tuan Ee has held a deep respect for agriculture and a love of nature. Noticing that many Malaysian brands were selling products made from reconstituted or powdered milk, he decided to purchase a small plot of land in Johor and import 60 Holstein Jersey cows from Australia, setting up The Holstein Milk Company. His dream? To produce fresh and pure dairy just as nature intended. The Holstein Milk Company Sdn Bhd is principally involved in (Goats & Cows) Dairy Farming, Processing and distribution of our fresh dairy produce direct from Farm to Shelf.
