## **ACKNOWLEDGEMENT**

Assalamualaikumw.b.t.

Alhamdulillah, after such a long period was spent, finally this assignment is completed. This is one of the ongoing assessments that crucial to every single student who took IMC 651 subject code.

We are grateful to a number of people who have helped us in the writing of this research report. First of all, to our lecturer who have thoughts us how to conduct research method. The basic structure of this report is the outcome of the feedback and theories we received from our lecturers Madam SitiNuur-Ilabt Mat Kamal.

We are extremely grateful to our friends and colleagues whose efforts in sharing knowledge and experiences. The report would not have reached its present stage.

We are also immensely grateful to the previous researcher's and experts who have helped us a lot indirectly. Hopefully, this research can become a reference for future research as well as becoming a useful approach to the upcoming experts to make a better improvement not only for humanities but more importantly for the focus field. Thank you.

**Abstract:** *As a developing nation, it has become a responsibility in producing a knowledgeable committee for future generations. Hence, achieving those goals required corporations and equal academic opportunity and medium as it would probably turn into a significance results not only for the normal person but also people with some limitations like disabilities. Although steps has been taken but it seems like there are still lacking issues especially in terms of approaches that really suits with the needs. Students diagnosed as dyslexic are one of the concerns that required narrower look from the responsible bodies. Being fair enough and aware of the current demand would bring not only brighter hopes for them but also ensuring the continuation of discovering a new prospect of learning skills and exploration process.*
