WELCOME MESSAGE

Assalamualaikum wbkt and Salam One Malaysia

First of all, I would like to congratulate the Research, Industrial Linkages and Alumni Melaka for yet another successful organization of the Research, Invention, Innovation and Design (RIID) exhibition 2012.

This competition and exhibition is the fourth effort by the Research, Industrial Linkages and Alumni in exhibiting the outcomes of research, invention and innovation by our own versatile lecturers and students and also participation from other IPTAs, IPTS and Schools. I believe that this exhibition is definitely a good avenue for them to participate actively and progress collaboratively in the field of innovation and research.

I am confident that the Research, Industrial Linkages and Alumni in the Melaka campus will continue to address the various challenges that we are constantly facing with a view towards multidisciplinary solutions. Hence, the present exhibition with the theme 'Innovation for Sustainable Growth' is appropriate, and I am certain that this exhibition will bring about more collaborative research and publication.

I therefore would like to take this opportunity to extend a big 'Thank you' to the organizing committee of Research, Invention, Innovation and Design (RIID) 2012 and each and everyone who has made this exhibition a reality. I wish all researchers, lecturers and students a meaningful and enriching experience in coming up with new and innovative inventions. I wish to end with a note of thanks to the Research, Industrial Linkages and Alumni for a job well done.

Yours sincerely,
Y.Bhg.Prof Madya Dr Mohd Adnan Hashim

BACKGROUND OF PENYELIDIKAN, JARINGAN INDUSTRI & ALUMNI (PJI&A)

PJI&A established in April 1980, started as the Research Management Unit (RMU) or IRDC and was formerly known as the Planning, Research and Development Centre. However in September 1987, IRDC was restructured with its heightened importance in research and consultation in UiTM and was divided into two units, Research and Consultancy Centre (RACC) and Planning and Evaluation Unit. This centre was then renamed Research and Consultancy Bureau in 1994 and on 15 July 2003 it became Institute of Research, Development and Commercialisation (IRDC).

With the mooted of the Deputy Vice Chancellor in March 2008 to take over the intellectual property and commercialisation portfolio, IRDC was given the responsibility to maximise innovation and increase the number of research which will later be published in high impact journals. Ensuing this, on 31 July 2008 IRDC became the Research Management Institute (RMI) to synchronise with UiTM's aspiration to become a Research University that will develop innovation activities and new research. In branch campuses RMI is known as RMU. The department of PJI was officially established in 2009 headed by its Deputy Director, Associate Professor Dr. Roaimah Omar. Under her guidance, Invention, Innovation and Design (IID) started with the RIID showcase in August 2009 and this was followed by the first IID exhibition and competition in October 2009.

PJI&A is mainly responsible to manage, monitor and facilitate researchers in conducting their research in the area of science and technology, management and social sciences. It also provides consultation services to researchers and assisting them in their research claims. PJI&A also conducts seminars and workshops to encourage, motivate and train the academic and non-academic staff in research and consultation, securing research grants and projects, to manage good financing and also manages entrepreneurial and alumni activities.

Objectives

- To promote world-class research.
- To administer, coordinate and provide service for research development, consultation and research publications.
- To provide assistance in exploring new subjects and identify niche area of interest.
- To disseminate information and provide ample training in research, consultation and publication of research.
- To disseminate information and provide ample training in research, consultation and publication of research.
- To provide related service through the latest technology.
- To assist in research publications for high impact journals.

Vision

- To become the leading administrative centre for research, development, consultation and world-class research publication.

Mission

- To enrich the academia, creative ability and innovation through quality service.

INTRODUCTION TO RIID 2012

Innovation activities can be considered as an important mechanism for the nation's progress. RIID2012 Melaka anchors on the objective to produce individuals who are capable of formulating creative ideas and be highly competitive. UiTM is an institution which primarily puts emphasis on an innovative culture among its staff and students to form a critical thinking society, possessing creativity skills and elevated knowledge. Aligned with the government's aspiration to cultivate innovation, UiTM Melaka has taken the initiative to organise RIID2012 Melaka Innovation Festival.

To raise the status of local universities globally or among the KPI which has been determined by the Ministry of Higher Education (MoHE) and to achieve the status of Research University, the total number of innovation being produced by a university is of utmost importance. Innovation is a vital catalyst to attain the status of a developed nation in the year 2020. Parallel to this, UiTM Melaka is carrying the nation's aspiration through innovation programmes wherein the staff and students' creativity and innovative abilities could be brought to greater heights through competitions and innovation exhibitions held every year.

To consistently produce innovation, IID competitions can act as one of the ideal channels or medium to ensure students, lecturers, administrative officers and the public to exhibit or display their products or prototype as well as new ideas that contain commercial values. The first IID held at UiTM Melaka level took place in 2009. It successfully exhibited more than 37 products. To continue the innovation culture within the campus community, IID competitions should be maintained.

The number of participation showed an encouraging response with 45 products being exhibited in the following year. The third IID known as DERIA 2011 was given a new facelift with an estimation of nearly 100 products that competed. Therefore, the Research, Industrial Linkages and Alumni Division (PJI&A) suggested organising the 4th IID in 2012. The IID competition this year is known as RIID2012 with the theme 'Innovation for Sustainable Growth'. The theme is chosen as innovation is believed to be the main impetus for growth that would spearhead the nation towards becoming a high income developed nation.

Therefore, the Research, Industrial Linkages and Alumni Division (PJI&A) has suggested to organise the 4th IID in 2012. The IID competition this year is known as RIID2012 with the theme '*Innovation for sustainable growth*'.

Robust Model for Health Related Quality of Life Data

Fakulti Sains Komputer & Matematik
UiTM Shah Alam

Norin Rahayu Shamsuddin, Dr. Norazan Mohamed Ramli, Az'lina Abdul Hadi, Nornadiah Mohd Razali,
Nur Niswah Naslina Azid@Maarof

Abstract

The job diversity of academicians teaching at higher institutions would indirectly affect their health and quality of life. Lecturers who are facing problems with their health might affect their performance and their teaching ability. In this study, the Health-Related Quality of Life (HRQoL) measures were used as instruments to assess the quality of life of lecturers from a public university in Malaysia. The HRQOL measures such as SF-36 consist of eight domains. These eight domains were summarized into two categories, which are physical component summary (PCS) and mental component summary (MCS). This paper addresses the effect of various factors dealt by a group of lecturers on PCS from a certain public university in Malaysia. A cross-sectional study was conducted during the semester, and a total of 193 respondents completed the questionnaires. Multiple linear regression models were used to relate the lecturers' PCS to the identified factors. Robust MM-method was used to estimate parameters in the model since the data consist of outliers. For a comparison, ordinary least square regression model was also included in the analysis. Analysis shows that robust model is preferred as it produces highest adjusted R-square and smallest residual standard error values.

Klip Video Lagu UiTM Melaka "Simfoni UiTM Melaka"

Fakulti Komunikasi dan Pengajian Media
UiTM Melaka

Siti Faidul Maisarah Abdullah, Nadiah Abdullah, Ilya Yasnorizar Ilyas, Fakrulnizam Jafri

Abstract

Simfoni UiTM Melaka adalah gubahan lagu khas untuk Universiti Teknologi MARA cawangan Melaka. Sejajar dengan saranan kerajaan hasil kreatif ini adalah merupakan satu inisiatif demi mengembalikan nostalgia perjalanan dan pencapaian warga UiTM Melaka sepanjang usaha mereka untuk menggilap nama UiTM Melaka ke kaca mata dunia. Sesuai dengan perkembangan teknologi terkini iaitu melalui media baru, Simfoni UiTM Melaka mampu diperdengarkan melalui "youtube", "dailymotion", GUA, TONTON dan juga laman sesawang UiTM sendiri. Sejarah dan masa depan adalah sebuah kombinasi menarik yang mampu menjadi tunggak kegemilangan sesebuah universiti. Ciptaan dan lirik oleh Siti Faidul Maisarah Abdullah dan dibantu oleh Nadiah Abdullah, Ilya Yasnorizar Ilyas serta Fakrulnizam Jafri. Semoga "Simfoni UiTM Melaka" mampu mengimbuai kenangan serta menjadi lagu tema rasmi UiTM Melaka.
