ABSTRACT

In the new world order, people love to travel all over the world just to see the culture, nature and new experience of world life style. It is not a new brand of culture. It was started since thousand years ago. People travel from part to the other part of world by sea, air and also road. These activities we call it as tourism.

Tourism is the activities of persons traveling to and staying in places outside of their usual environment. It is not more than one consecutive year for leisure, business or any other purposes. It is not related to the exercise of an activity remunerated from within the place visited. Tourism is different from travel. In order for tourism to happen, there must be a displacement: an individual has to travel, using any type of means of transportation.

Transportation played the most important part of tourism. We use it to get to another place that hundred or thousand miles far away from you. Without the transportation, we are not able to travel all part of the world. During of tourisms they used it as a vehicle for lot more activities.

Nowadays, transportation are more then transportation. People are using it to involve in new extreme sport for tourism. One of them, it was called the outdoor activities and forest touring. The are lot of outdoor activities and forest touring
