MISS EARTH RECYCLE CENTRE

ACKNOWLEDGEMENT

Thanks God that we all have been able to finish this final project with His guidance we are able to do this project with facing any problem.

We are students who taking course Diploma in Public Administration in UiTM Samarahan. We have been assigning to complete one of the final project on entrepreneurship. This project have teaches us a lots knowledgement things such as the basic of being an entrepreneur where we have to establish our own business that we choose. Then we learn how to manage our own business and run our premise perfectly. After we all doing discussion between group members, we choose to open a recycle centre and we name it by the name "Miss Earth Recycle Centre" .

We also would like to thank Encik Abang Sulaiman Bin Abang Naim our ENT300 lecturer for guiding us and giving us the hint regarding on our project. Throughout this project he gave us useful information about entrepreneurship. Special thanks also to all the government agencies that help us a lot with our project such SESCO, Kuching Water Board, KWSP and etc.

Lastly, thank also to selected recycle centre such DIN KARGO sdn.bhd and BAKO KAYA sdn.bhd for gave us feedback and full of information about recycle regarding to our project wants and needs. Not to forget also to our friends and classmate who also gave us a lot of information and their support helping us to complete this project. Finally, thank to our parent who financially support us on this project.

MISS EARTH RECYCLE CENTRE

Dear Sir,

RE: SUBMISSION OF BUSINESS PLAN

As a representative of our company, Miss Earth Recycle Centre Company, I would like to submit our business plan for your evaluation and further action. We are very grateful for the motivation, advice and support that have been given by you in order to accomplish this business plan and in the same time anchored us toward goals and objective of the preparation of this business plan until we finally complete according to time given and as scheduled.

Our group's perception towards ENT300 (Introduction to Entrepreneurship) had given us the exposure and clear picture on the fundamental of starting the business. This experience may be a benefit for us after graduating from UiTM and towards self-employment which may reduce the unemployment rate among the graduate students.

Due to the completion of this project, the team had gathered many ideas and I personally felt that, this project could be realized one day. To become the real entrepreneur one day, it can be easy with the existence of the team spirit as what our team did and the basic knowledge that we gained from this project. On the other hand, it may become difficult and hard to be realized if the existence of the negative elements such as laziness, selfish, impatience and not highly motivated appear. Dare to take the risks and not dare to fail become our ingredients in order to make this project to be realized someday.

Your highly attention, guidance and cooperation had given us the spirit and motivation until this business plan finally had been accomplished successfully and become reality. It is insufficient to express our grateful towards your effort in order to give us sufficient knowledge with word and we hope for God's blessing toward you and your family Sir Abang Sulaiman.

MISS EARTH RECYCLE CENTRE
