ACKNOWLEDGEMENT

In the name of Allah, Most Gracious, Most Merciful.

Foremost, Alhamdulillah, all praises to Allah for the strengths and His blessing in completing this research report. We want to thank almighty, our parents for their constant encouragement without which this research would not be possible. We also would like to express our sincere gratitude to our supervisor, Ms Ibiana Anthony Aning for her patience, motivation, enthusiasm and immense knowledge that had given to us. Her guidance helped us in all the time of research and writing of this research report. We could not have imagined having a better advisor and mentor for our research report.

Besides that, as a member, we also take these opportunities to express a deep sense of gratitude to among us. There only two of us, Nur Adibah Damit and Nur shatilah Ahmadsah. The great helped, cooperation, understanding, sharing knowledge, advice and motivation given will not be forgotten.

ABSTRACT

The increasing of the social problems among teenagers alarming the public that this problem cannot be taken lightly and this is really worrying, especially among parents. Because of that, there were comes to the mind that Comprehensive Sex Education (CSE) might be suitable to minimize the social problems among teenagers in Malaysia. As parents is the closest person to the children, it is so important to seek the perception among parents towards the possibility of introducing CSE at schools by using the questionnaire surveys. It is found that few of the respondents are pessimistic towards CSE, however, there are several interesting findings that have been discussed and highlighted which majority of respondents are optimistic towards CSE to be introduced at schools.. In summary, everything related with this study have been discussed.
