ACKNOWLEDGEMENT

This research project paper has been carried out by a team which includes Wahida Binti Abdullah, Nor Asfalla Binti Mohamed Arsad, Siti Nur Zulaikha Binti Ibrahim and Marliana Binti Togimin. Therefore we would like to convey our gratitude to those involved in this project.

First of all, we would like to express our deepest gratitude to Allah S.W.T for His blessing and guidance for us because with His blessings and guidance, we have the strength to complete this research project paper. We would like to extend our utmost gratitude to our beloved supervisor, Puan Siti Hafsyah Bt Idris due to the time, effort and advice which she unselfishly given us. It would be safe to say that the journey that we took to complete this research project paper would not have been smooth or as pleasant without the guidance given by Puan Siti Hafsyah Binti Idris. May Allah S.W.T repay her for the help she has given us and the patience that she had in supervising us.

We would also like to extend a special thank you to those that we have interviewed notably Legal Advisor of Klang Municipal Council (MPK), Environment Control Officer Department of Environment of Selangor (DOE) and Senior Lecturer in Institute of Biological Science of University of Malaya. Not only have they provided us with valuable and vital information for our research paper, their willingness to share their experience with us was an invaluable experience for us. We also would like to thank them for their cooperation in granting us an interview even though with the limited time they have.

We would also like to take this opportunity to thank the contribution of our beloved parents who has helped us through providing moral support and financial assistance to us. We would also like to acknowledge the contribution of our friends in helping us and being with us through the good and also stressful times during the conduct of this research and making this project a success. Thank you.

ABSTRACT

This research is concerning on the law on solid waste disposal mainly in the area administered by Klang Municipal Council. Presently, there are three levels of government that managed solid waste disposal which are the Federal, State and Local Government. The Federal and State Government share the power on sanitation issue that falls under the concurrent list of the Ninth Schedule of Federal Constitution. The Federal Government will set up the policies and the States will implement those policies while the Local Authorities have direct responsibility over solid waste management. Nowadays, the issue on solid waste disposal has become major concerns among the public at large. Moreover, the Federal and States Government together with Local Authorities have initiated various law and policies in order to tackle the problems regarding solid waste disposal. Therefore it is the objectives of this research to analyzed on the role and function of The Refuse Collection, Disposal and Removal (Klang Municipal Council) By-Laws 2007 and the Solid Waste and Public Cleansing Management Act 2007 as well as Solid Waste and Public Cleansing Management Corporation Act 2007 and looked into the effectiveness of the implementation and enforcement of the law in controlling solid waste matters. Finally, this research also provides the recommendations to improve the solid waste management system in Malaysia with reference to the area administered by Klang Municipal Council

TABLE OF CONTENTS
