## ACKNOWLEDGEMENT

In the name of Allah the most gracious and the most merciful and Him alone in worth of praise. I am grateful and thankful to the Almighty who help me to develop my Final Year Project Management System Running on Android Apps.

I am also want to take this opportunity to express my deepest gratitude to my supervisor, Dr. Norsuzila Yaacob for all her support, ideas, concern, guidance, trust, help and kindness. May Allah S.W.T grant her and her family paradise and successful in this world and hereafter.

To my beloved family, especially my wife without her support may be I will not be able to complete my project. I was thankful for their understanding and support which help me to go through this though period.

Finally, to all of my friends and people who were directly and indirectly being helpful and open minded in sharing knowledge during preparation of my academic Final Year Project. Thank you and may Allah S.W.T grant all of you paradise and successful in this world and hereafter.

## ABSTRACT

The aims of this project is to manage the activity of Final Year Project course by developing a Final Year Project Management System which is running on Android Apps. The apps will help the supervisor to monitor and evaluate their students work progress. It also help the students to communicate and send report progress to supervisor thus this apps make the Final Year Project become convenient and easy. This apps was developed by using Android Studio, [Parse.com](https://parse.com) and [Sinch.com](https://sinch.com). The android studio was a Java base language were develop by Google and it is an open source mobile operating system. The [Parse.com](https://parse.com) is a hosted service, providing backend service for android platform and it act like a database. While [Sinch.com](https://sinch.com) was used to support the [Parse.com](https://parse.com) for capability to make calling and messaging apps for free. This apps provide several menu which users can send report, view report, calling, messaging, email, view students profile and many others which will be explain further more throughout this paper.
