ACKNOWLEDGEMENT

First of all, we would like to thank Allah S.W.T for giving us the chance and the opportunity to complete my industrial training started from August until December. Other than that, i would like to thank Sir Mohd Naim Bin Mohd Nasfi for her continuous support, guidance, comments and and come to visit me at industrial training. Without her guidance and knowledge on this report, we won't be able to finish the assignment on time.

Besides that, I would also like to acknowledge all staff at Perbadanan Perpustakaan Awam Pulau Pinang (PPAPP) especially my advisor Cik Norma binti Abdullah@Omar for giving me chance to training at PPAPP and give me support to do a special project although she busy with her duty.

Finally, I would like to extend special thanks to our beloved family especially our parents for giving support in terms of motivation, finance and understanding our difficulty finishing my practical training because without their encouragement and support we will not finish this assignment on time.

ABSTRACT

Scope of Information Management studies has provided challenges to anyone who involve on it that are not focusing on one thing. In order to finish writer study, writer have to occupy industrial training in Public Library. Trainee have chosen to do internship at Perbadanan Perpustakaan Awam Pulau Pinang (PPAPP). Trainee have five months starting from 1st August to 31st December 2018. Based on trainee observation in PPAPP is a great mechanism for student in order to acquire and gains a high quality of knowledge and experience . PPAPP is recommended place to undergo the internship. It is because PPAPP have equipped to fulfill the studies and course. During the Trainee practical training, PPAPP gives priceless experience and train me how to be a good worker in order to be more multitasking, improve trainee self-confidence level when dealing with people and this the things will come benefit to practical student like me. The trainee learned a lot of things that cannot be achieved in trainee previous studies during practical training. The trainee also learnt a lots of things that should acquire in order to be a good and successful librarian or information professional. As a information students, we should be knowledgeable in order to deal with problem that might arise. Last but not least, the experience during industrial training is the best method in order to enhance the knowledge of the Information Management student.
