2002

ACKNOWLEDGEMENT

In the name of Almighty, Allah SWT, the most beneficent and the most merciful, I would like to express my fullest gratitude and greatest thanks to several people who helped me with my research projects.

Firstly, to my advisor, En. Hamdan Ahmad for his useful comments and guidance. I also thank him for his patience in guiding me throughout the research.

Secondly, to the late Coordinator, En. Bakaruddin Busu, for his assistance throughout my study years in the faculty. In addition, I thank all the lecturers from the Faculty of Sports Science and Recreation for their patience and sincere guidance in giving me useful education for my future career.

I also take this opportunity to thank En. Md. Masshoud and En. Zubir Ibrahim and all the respondents at Petronas EON Racing Team (PERT), for their cooperation, time, patience and willingness to put up with my endless questions when collecting the data for the research.

Finally, I would like to express my deepest gratitude and appreciation to my beloved parents for their undivided support not only in providing me comfortable shelter, financial support to complete my education, but also their endless love.

Thanks you again for all the understanding and sacrifices given to me during the making of my research project. May Allah ~~can~~ repay your kindness and your sincere support. Amin.

Appendix 1 - Questionnaire

ABSTRACT

The main objective of the research was to investigate the problem that occurred in the organization of PERT. The design of the research involved a study of two departments (Management Department and Engineering Department). A questionnaire was developed for the respondents to answer. 10 respondents from Management Department and 20 respondents from Engineering Department answered the questionnaire. The questionnaire was divided into 2 sections. The section was demographic details of respondents and the problem faced by the organization. The results were analyzed, the implications of these results are highlighted, and recommendations made for future research.
