ACKNOWLEDGEMENTS

We should like to express our gratitude to our lecturer, Encik Kamaruddin Sulaiman who has contributed to the preparation of this project.

We are indebted to numerous individuals who have given us the benefit of consultation. Particularly we should like to acknowledge our gratitude to Dr Md. Rosli Bin Sulaiman. M.D (UKM) and his employees who has given us the materials needed for the various parts of the project. Our beloved families and friends gave inspiration and encouragement from the inception.

Our sincere thanks to all. Needless to say, all matters of analysis, interpretation, judgement, opinion, error or omission are entirely our responsibilities.

1. INTRODUCTION

Klinik Dr Rosli is a private Clinic which operates under the jurisdiction of the Ministry of Health, Akta Perubatan 1971 and Malaysian Medical Association (MMA). The nature of the business entity chosen by most medical practitioners varies from sole proprietorship, partnership or through in incorporation of a company.

Dr. Rosli has one clinic registered under sole proprietorship as "Klinik Dr Rosli - Klinik Kanak-kanak dan Dewasa" and it is located at 108, Blok 15, Jalan 18/3, Section 18, Shah Alam.

Being a business organization and professional practice in particular, the clinic's objectives are as follow :

- i) acquiring profits through utilization of professional qualifications and expertise of as practioner.

- ii) provide , good, efficient and personalized services back-up with the latest medical equipment and quality medications.

The principal function of the clinic is to provide quality medical services at the reasonable costs in line with the medical (doctor) code of ethic. The clinic provides general outpatient treatment for
