(2019230774)

Aliyah binti Rostani

(2019612356)

Name of Supervisor

Dr Mazlan bin Che Soh

AUGUST 2022

ACKNOWLEDGEMENT

Alhamdulillah, all the praise to Allah for giving us good health and giving a strength to finish our study. Completing research during pandemic is very challenging to us especially with online distance learning that build barriers between us and our supervisor. We are profoundly grateful to Dr Mazlan Che Soh as our supervisor, for his guidance, encouragement, patience, and support. We consider ourselves very fortunate to be able to work with a lecturer like him, who is very considerate and motivating. We would not be able to complete our research work in UiTM without his offering to conduct this study.

It is already 12 month which second semester with our supervisor and we are grateful for the invaluable support of positive comments and advice during the experiment. It is an absolute delight to have him as our research survey supervisor. Besides, as our lecturer for ADS511 and ADS555, we would like to express our gratitude to Sir Mohd Ramlan bin Mohd Arshad and Dr Nor Hidayanah. They are very helpful in providing information and assistance for these two semester. We also want to thank our families for their consistent support in the term of mentality and physicality and for recognizing our responsibility as a student. Our sincere thanks to our friends also helped us to share the research study results. Besides, throughout these semesters, we also owe our deepest thanks to those who directly and indirectly supported us during the research. Thank you.

ABSTRACT

This study was carried out to investigate the factors influencing cybercrime among higher institutions students in Malaysia. The awareness level, peer influence, technology inclination and economic situation were the factors identified in this research study. The research goal of this study is to investigate the link between all the factors that influencing cybercrime among higher institutions students in Malaysia. By using Quantitative Sampling technique, a total 273 respondents were given a series of questions to complete online. The respondents are primarily Malaysians. All responses from respondents be broke down using IBM SPSS Statistics 25 to examine the link between these four characteristics and factors influencing cybercrime among higher institutions students in Malaysia. All the previous studies were shown to have a positive significant association with the factors influencing cybercrime among higher institutions students in Malaysia.

TABLE OF CONTENT

CHAPTER 1	1
1.1 Introduction	1
1.2 Problem statement	2
1.3 Research Questions	4
1.4 Research Objectives	5
1.5 Scope of Study	5
1.6 Significance of the proposed study	6
1.7 Definition of terms, terminology and concepts	7
CHAPTER 2	10
LITERATURE REVIEW & CONCEPTUAL FRAMEWORK	10
2.1 Cybercrime Concept	10
2.2 Cybercrime at global perspective	11
2.3 Cybercrime in Malaysia	13
2.4 The factors influencing cybercrime among higher institution students	15
2.4.1 Awareness level	15
2.4.2 Peer Influence	15
2.4.3 Technology Inclination	16
2.4.4 Economic Situation	18
2.5 Conceptual Framework	20
2.6 Hypothesis Development	21
CHAPTER 3	24
RESEARCH METHOD	24
3.1 Research design	24
3.2 Unit/level of analysis	25
3.3 Sample size	25
3.4 Sampling technique	26
3.5 Measurement/Instrumentation	27
3.6 Data collection	29
3.7 Data analysis	30
3.8 Pilot study	31
CHAPTER 4	32
FINDINGS	32
4.0 Introduction	32
4.1 Demographic Profile	32

4.2 Reliability test.....	35
4.3 Normality test.....	35
4.4 Main findings.....	36
4.4.1 To identify the awareness level of cybercrime issue among higher institutions student in Malaysia.....	36
4.4.2 To determine the relationship between peer influence toward the factor influencing cybercrime issue among higher institutions students in Malaysia	37
4.4.3 To determine the relationship between technology inclination toward the factor influencing cybercrime issue among higher institutions students in Malaysia	38
4.4.4 To determine the relationship between economic situation toward the factor influencing cybercrime issue among higher institutions students in Malaysia	39
4.5 Summary of findings.....	40
CHAPTER 5.....	41
DISCUSSION AND CONCLUSION	41
5.1 Introduction.....	41
5.2 Summary of study	41
5.3 Summary of research objectives.....	43
5.3.1 To identify the awareness level of cybercrime issue among higher institutions student in Malaysia.....	43
5.3.2 To determine the relationship between peer influence and factor influencing cybercrime issue among higher institutions students in Malaysia.....	43
5.3.3 To determine the relationship between technology inclination and factor influencing cybercrime issue among higher institutions students in Malaysia.	43
5.3.4 To determine the relationship between economic situation toward the factor influencing cybercrime issue among higher institutions students in Malaysia.	44
5.4 Recommendation of the study.....	44
5.4.1 Parents improve on monitoring students' peer selection	44
5.4.2 Make use technology knowledge in positive way	45
5.5 Research limitation and future suggestion	45
5.5.1 Limited sample size.....	45
5.5.2 Weakness of quantitative research.....	46
5.5.3 Limited variables	46
5.6 Conclusion	47
6.0 REFERENCES.....	48
7.0 APPENDIXES	50-61
