## ACKNOWLEDGEMENTS

**“In the name of Allah the Almighty, the Merciful, and the Beneficent”**

Glory to Allah S.W.T, Most Gracious, the Most Merciful, and peace upon his messenger Holy Prophet Muhammad S.A.W. All the worship belongs to only Allah. I seek refuge to Allah from the wickedness within and from the evil deeds. I also praised to Allah S.W.T for giving me courage, time, strength, and knowledge to complete this project paper properly. First and foremost, I would like to express my deepest gratitude to my advisor, Mdm. Ruziah A. Latiff for her advices, comment, brilliant suggestions, knowledge and untiring supervision which beyond repayment in preparing this project paper. Her constructive comments and advices have been valuable in making this project paper successfully. Not forget to my second advisor, Miss Norashikin Ismail for her support to complete this study. It would have been impossible without her guidance.

My special thanks also go to Hj. Idrus bin Mohd Nayyan ( Assistant Vice President of Takaful Ikhlas Sdn. Bhd.) and to my supervisor, Mdm. Wan Zahani Wan Ngah, who had given me the knowledge that I need in fulfilling the requirement of my study. Both have given me the encouragement and hope for me to be more successful. This project paper would have been impossible without their guidance.

Last but not least, my heartiest appreciation goes to my father, Zulkifli Mat Ali and my mother, Mdm. Rosnah Awang for their encouragement and moral support. Thank you to them from the bottom of my heart. My special thanks are also dedicated to my friends for giving me support, cooperation, idea contribution and theirs suggestion in order to complete this project paper. Once again to all of the above, I would like to thank you and may the Al-Mighty bless everybody.

## ABSTRACT

The main objective of this research is to discover the relationship between performance expectancy, perceived credibility and religiosity with behavioral intention in using Islamic Coins. The additional objectives are to determine which of the factor has greater effect on acceptance of Dinar and Dirham among Muslims in Kelantan. The main determinant of this research which factor the most influence towards acceptance of Dinar and Dirham among Muslims in Kelantan. The dependent variable of this study is behavioral intention to use Islamic coins which is has a significant relationship by independent variable consists of perceived credibility, performance expectancy and religiosity. The data for this research was obtained from survey. A set of questionnaires has been distributed among the Muslims and done to 150 of randomly selected respondents around Rantau Panjang, Tanah Merah and Jeli, Kelantan. Basically, the questions of survey based on the Muslims' perception and their acceptance towards the significant role in practicing Dinar and Dirham in daily transactions. The data were analyzed using IBM SPSS Version 16 through the frequency analysis, reliability analysis, descriptive analysis, correlation of coefficient and regression analysis.
