WATER DISPANSER/AGUA PURE (PRODUCT DESIGN)

Design Advisor : MRS FADILA MOHD YUSOF

Agua pure is a product related to water dispenser but its size is smaller, lighter and can be taken anywhere. This product is designed to ensure that we can wash our hand from various objects when we do activities outside, sometimes we do not know where we are holding there are variation of COVID 19 virus.

Agua pure is a product that can help the community in various situations, situations and anywhere. Therefore, this product can also be used for travellers and families. It can be used anywhere. In every place not everyone has a running tap or clean water so they can use Agua pure to wash their hands. COVID 19 virus is everywhere so we need to always keep ourselves free from COVID 19 virus.

The main objective of Agua pure is to help people to keep their hands clean from COVID 19 virus infection.

Moreover, 100 percent of the community agrees that clean water supply is very important in their daily lives, and some of them think that it is difficult to get a source of clean water when they travel. From the information obtained Agua pure is very suitable for use nowadays which is affected by cOvid 19 virus.

In conclusion, we as a society must always ensure that the health of our body is always maintained and always keep ourselves clean so that COVID 19 virus cannot approach us.
