ACKNOWLEDGEMENTS

We wish to acknowledge many people who have contributed to this research project either directly or indirectly. First of all, we thank to our supervisor, Dr Haijon Gunggut for his guidance in this project. He has been committed and always have time to counsel on the direction and shape of this project. His advice enable us more understanding and appreciate the importance of research. We also wish to thanks to all our lecturer for give information and knowledge also skills in completing this project. Furthermore, we wish to salute all the respondents who have accepted to participate in this research project. We believe their contribution will be invaluable especially in providing relevant data useful for the study. Thirdly, we all thanks the local government and the local people who will in one way or the other facilitate the process of carrying out this research. Last but not least, we acknowledge the friends who help us in completing this project.

Abstract

Litter is waste disposed in the wrong place by unlawful human action and can vary in size of incident, occurrence and items. The aim of this paper is to study the Littering at the business area at Indah Permai, we are only focusing the objectives which is to analyze littering behavior in Indah Permai business area and to examine the relationship of law enforcement of anti-littering by-law with cleanliness in Indah Permai Business area. The types of sampling used was convenient sampling which mean that total sample of 196 respondent in Indah Permai business area were selected for this study. The instrument used was the distribution of questionnaires to the respondent for business area Indah Permai.. After collecting data from the questionnaires which has been answered, the data was analysed using the SPSS whereby the data will be analysed using both descriptive (mean and standard deviation) and inferential statistics (mean and Chi-Square). The findings show that there are relationships between level of attitude of people towards littering with the level of education. In conclusion, the level of attitude was associated with the level education Indah Permai, meanwhile there are no relationship with the level of enforcement law with the cleanliness in Indah Permai.

Title	Pages
CLEARANCE	i
DECLARATION	ii
ACKNOLODGMET	iii
ABSTRACT	iv
TABLE OF CONTENT	v
LIST OF TABLE	vii
ABBREVIATION	viii

Chapter I: Introduction

1.1	Background of Study	1
1.2	Problem Statements	4
1.3	Research Questions	7
1.4	Research Objective	7
1.5	Scope of the Study	8
1.6	Significance of the Study	8
1.7	Definition of Terms	9

Chapter II: Literature Review & Conceptual Framework

2.1	Introduction	10
	2.1.1 Attitude towards littering	11
	2.1.2 Enforcement of law	12
2.3	Conceptual Framework	13

Chapter III: Research Methodology

3.1	Research Design	16
3.2	Population	16
3.3	Sampling Methods	17
3.4	Instrument	18
3.5	Unit analysis	19
3.6	Data Collection	20
3.6.1	Primary Data	20
	3.6.2 Secondary Data	21
3.7	Data Analysis	21

Chapter IV: Findings

4.0	Reliability of Statistics	22
4.1	Descriptive Analysis	
	4.1.2 Section A: Demographic Details	23
	4.1.3 Section B1: Level of attitude	26
	4.1.4 Section B2: level of enforcement law	28
	4.1.5 Section C: Mean	29
	4.1.6 Section D: cross tabulation	31
4.3	Finding by Objectives/Inferential	
	4.3.1 Level of attitude with residence	32
	4.3.2 level of attitude and education	33
	4.3.3 level of enforcement law with cleanliness	34

Chapter V: Conclusion & Recommendation

5.0	Introduction	36
