## ZNS 01 : GLOVE

(PRODUCT DESIGN)

Design Advisor : MR MOHD HAMIDI ADHA MOHD AMIN

After the pandemic Covid-19 has had a major impact on economies around the world. However, all sectors returned to normal by adopting SOP standard operating procedures. One of the activities according to standard operating procedures is the opening of a gymnasium. Despite having certain procedures, many people are still afraid to go to the gymnasium center because the covid 19 virus is easily spread in the gymnasium center.

ZNS 01 is a glove that can prevent users from being infected with covid virus 19. The main function of this product is to reduce the risk of virus infection on gymnasium equipment. In addition, these gloves have a layer of cloth to wipe gymnasium equipment before using it. By using this layer of cloth, users can reduce the risk of infection on gymnasium equipment.

The objective of ZNS01 is to reduce the risk of infection to users while users use the equipment in the gymnasium. In addition, this product has a layer of fabric for use on gymnasium equipment. Before using gymnasium equipment users need to wipe the gym equipment to prevent infection.
