Faculty of Applied Sciences
Universiti Teknologi MARA**

JANUARY 2015

ACKNOWLEDGEMENT

Praise to God, who gives me the strength and ability towards the completion of my final year project for the course code FSG660.

My great appreciation dedicated to my supervisor Encik Nik Hazlan Bin Nik Hashim, who had been so politely and a lot of commitments in helping to finish this project. Thanks a lot for helping me on every phase of the study which are generous in leading me her hand, helping and showing me the correct ways to completing the final year project.

I also want to thanks to my co supervisor Madam Nur Hannani Binti Abdul Latif and Encik Ahmad Fauzi Bin Awing @ Othman for his willingness to help and guidance to completing the entire task given.

Thanks a lot to Prof..Madya.Dr. Hj.Wan Mohd Nazri as my coordinator for this course for his willingness and patience to always besides give guidance.

Not being forgotten to En. Rosli Jaafar and my beloved friends who always blessing and give supported in my studies and trusted committees like to express my special thanks to Sadam, Mohamad faize, Nazrin and all of my friends for their commitment and sincerity to help each other's in the task to completing the final year project for this semester for those who are involved either direct or indirect along the work. I believe, without their help. I would not be able to complete this assignment.

I would like apologized if there any imperfect or error from this assignment.

ABSTRACT

TABLE FROM OIL PALM LUMBER

This research was conducted to examine the feedback from people about the important of oil palm lumber in furniture making. The new material of product is the major for this study. The table was produced and the data was collected by survey from questionnaires. The questionnaires were too distributed to 90 correspondences from students and staff of UITM Pahang and also the publics. Then, the data were analyses by SPSS to get the results. Most of the correspondences given the positive feedback regarding on the new material used suitable for simple design furniture, easy to handle, portable, saving space, light attractive. Overall table by using oil palm lumber were accepted by all correspondences in range of age, gender and position.
