# CHAPTER 1

## INTRODUCTION

### 1.0 Background of Study

The main purpose of this study is to identify the factors of drug abused influences among occupant in Pusat Pemulihan Penagihan Narkotik (PUSPEN), Kuching. Nowadays drug abused problem raise in Malaysia and serious attention are needed to face this problem. This is because our research purpose to discuss the drug abused aspect, limitation of the research and purpose of study to fulfill research necessity.

Drug symptom in Malaysia was start with modern economic recognition by west imperialist around the end of nineteenth century. Expansion modern economic in Malay land on that time was make British government allow possessed of Chinese immigrant to Malay land to fulfill laborer necessity in quarry and agriculture sector ( Siti Zuraina, Muhammad Yusuf, Abdullah Zakaria, Lee Kam Hing, Ahmad Fawzi and Zainal Abidin, 1992). In year 1870 to 1929, many Chinese people come to Malay land with easier. On that time estimated in 613 immigrant people from china is arrive in strain country (Siti Zurina et al., 1992; Drug Report, 1995). Immigrant possessed from south region china the middle of 19 century was bring together their habit opium absorb (Mohd. Reduan Aslie, 1990).

## CHAPTER 2

### LITERATURE REVIEW

#### 2.0 Background

PUSPEN is a Narcotic Rehabilitation Centre which forms in year 1965 for purpose to place resistance centre and protection subversive elements. It's known as PUSPEN starting year 2009. The objective of PUSPEN is to prevent people from involve in illegal drug, take care of and recover drug addicted, prevent re-addicted and overcome the supplies and drug abuses.

#### 2.1 Definition of Drug

Drugs are chemicals and organic that changes the way a person's body works whether genuine or imitation. When it is entering in human body through injection, sniff, absorb or eat, it may change the function of human body or organism from mental and physical side.

Drug is the one social phenomenon that really crucial facing by state nowadays. This problem start had been discussed from year 1970 before, but until now it still did not show any positive changes. As a shoreline that achieves many changes and development, Malaysia goes along get many several of social symptoms. Drug abused especially among of teenagers conducive to worried because it is related with social disease such as prostitution and a hit-or-miss. This element accuses condition of the state in field of economic, culture, politic and security. In other word, advancement and development that we achieve will not remain if drug problem cannot be preventing immediately (Faizal, M.).
