## ACKNOWLEDGEMENTS

Alhamdulillah, all praises to Allah SWT for giving me the strengths and guidance in completing this research. I would like to express my gratitude to my supervisor, Madam Junaiza Binti Ahmad Zaki for her supervision and constant support in making this research possible. I really appreciated her guidance from the initial to the final stage of this research that enabled me to develop an understanding of research.

I also would like to express my special thanks to my co-supervisor Dr. Mohd Noor Azman Bin Othman for his advice and assistance in completing this research. Thanks to my second co-supervisor Mr. Mohd Sofian Bin Abdul Jalil from Furniture Technology Center (FITEC) for the help in giving me the permission to use the workshop at FITEC.

My sincere thanks go to my Project Coordinator, Assoc. Prof. Dr. Wan Mohd Nazri Bin Wan Abdul Rahman and the Head of Programme, Mr. Amran Bin Shafie who have always helped me in conducting this research. Furthermore, thanks to all lectures and staff who have helped me in many ways and made my education journey unforgettable.

I acknowledge my sincere gratitude to my parents for their love, dream and sacrifice throughout my life. I am really thankful for their sacrifice, patience, and understanding. Special thank also goes to my best partner Mohd Shafrul Ezrey Bin Mak Tual who has always given me the advice and strength for completing this study.

Lastly, I would like to thank any person who has contributed to my final year project directly or indirectly. Thanks for everything.

Thank you.

Suhaizah

## **ABSTRACT**

### **MULTIPURPOSE STORAGE BOXES USING BLOCKBOARD**

The objective of this study was to produce a commercialize design of storage boxes with multipurpose uses and evaluate customer satisfaction on the newly invented design. A survey was conducted by giving a set of questionnaire to 60 respondents at UiTM consisted of staff, student, and others. The results showed that there was no significant difference between gender, age, and profession of respondents in relation to the design on the whole. Meanwhile, there was a significant difference based on gender of respondents on the influence the portability and easy handling of the product. This study has achieved all of the objectives stated as the results showed that almost all of the respondents strongly agreed with the product specification regardless of gender, age, and profession of respondents. In conclusion, this multipurpose storage boxes has the commercial values required.
