

3RD INTERNATIONAL SYMPOSIUM ON MATHEMATICAL SCIENCES AND COMPUTING RESEARCH 2018 (ISMSC 2018)

On November 13, 2018, the 3rd International Symposium on Mathematical Sciences and Computing Research 2018 (ISMSC 2018) was successfully organised by the Faculty of Computer and Mathematical Sciences (FSKM) and the Faculty of Science and Information Technology (FSIT), Universiti Teknologi Petronas (co-organiser) at UiTM Perak Branch, Tapah Campus. The objectives of coordinating the symposium were to provide a venue for researchers, academia as well as participants to meet and exchange ideas on recent research and development in the areas of computing technology, information systems and mathematical sciences. It also functions as a platform to offer opportunities for the participants to discuss the current research on a broad range of subjects. The symposium attracted more than 30 paper submissions. Each submission underwent the double blind review process and 27 accepted papers were published in the Scopus Indexed International Journal of Engineering and Technology (IJET) Special Issue 33, Volume 7.

Two keynote speakers, Assoc. Prof. Ts. Dr. Mohd Fadzil Hassan from Universiti Teknologi Petronas and Dr. Mohamed Imran Mohamed Ariff, from UiTM Perak Branch, Tapah Campus touched on the current trends in computing research with regards to IR 4.0 and Big Data. Two parallel sessions were held and each session had two plenary speakers along with the paper presenters. As for parallel session 1, which highlighted the issues on Mathematical and Statistical Research, the plenary speakers were Dr. Samsul Ariffin Abdul Karim and Assoc. Prof. Dr. Mahmud Othman; both from Universiti Teknologi Petronas. Whereas for parallel session 2, which focuses on Computing Research, the plenary speakers were Dr. Suraya Masrom (UiTM Perak Branch) and Dr. Mohd Hilmi Hasan (Universiti Teknologi Petronas).

The symposium was also attended by 200 undergraduates who were eager to gain insight from the current trends in computer technology and mathematical research. In fact, the symposium was able to contribute to UiTM Perak's KPI for publications in indexed journals. The next 4th symposium is planned to be held in 2019.
