

CREATIVITY AND PASSION THROUGH CLAY

One hundred and fifty students from three Maktab Rendah Sains MARA (MRSM) branches; Kuala Klawang, Sungai Besar and Parit had participated in the Ceramic Fest 2019. It was a collaborative programme between the Faculty of Art and Design (FSSR), UiTM Perak Branch and Maktab Rendah Sains MARA (MRSM). The programme was held from April 26 - 28, 2019.

The focus of Ceramic Fest 2019 was to highlight the importance of ceramic design in daily life. It was also hoped to trigger the interest of the students in ceramic design. Ceramic is known as one of the oldest forms of art in the world and it has a therapeutic effect. In certain countries, making ceramic has been applied as a method to handle stress and emotional disorder.

Throughout the programme, students were shown the process and techniques in ceramic design and they were given hands-on experience in handling clay. They were also given an opportunity to visit the faculty's studios, workshops and gallery. Apart from that, Ceramic Students' Society (PERSEMI) also took part in the programme by setting up the art projects and art sales. It had drawn the attention of the audience who attended the programme.
