# **Best Google Forms** Add-Ons for Educators

Prepared by Siti Noor Dina Ahmad

Recently, Google Forms has gained popularity among educators. This is because today's education is more focused online on raw materials since the pandemic of COVID-19 hit all countries of the globe. The easiness and userfriendly features of Google Forms make it one of the platforms of choice for both teachers and lecturers. One of the tools of Google Forms is students are able to see their marks once thev submit the form or in this case is the test. However. there are some features that Google Forms is lacking such as unable to set the time limit to answer and incapable to lock automatically the form after certain number of а responses.

You've come to the right place if you're a teacher or administrator who is looking for Google Forms add-ons. The following add-ons let you do plenty of things like analyzing your student's responses, creating timebound quizzes or shut/lock the form's responses after a particular time.

Let's get started.

### 1. formLimiter

formLimiter is the best to levy a limit on the responses for the forms. This nifty add-on gives you two options; you can either set the number of responses, or you can specify the final date and time to response.

FORMLIMITER	• _ ×	Formlimiter <u> </u>		
Limit Type 🚯		Limit Type 🚯		
date and time 🗘		number of form responses		
Stop accepting f	orm responses	Stop accepting form responses		
when a due date	is set on	when responses are greater than		
Select date	Select time	Must be an integer		
*Uh-oh! Looks like y	rou have not selected a date.	Message when submissions are closed		
This form is no lo	submissions are closed onger accepting responses, t to automatically close by n.edu.my.	This form is no longer accepting responses, and has been set to automatically close by dinaahmad@uitm.edu.my.		
Email form ov closed	vner when submissions are	Email form owner when submissions are closed		
Save and enable	Disable 🐤	Save and enable Disable		
CL 🔰	OUDLAB	CLOUDLAB		

The time feature can be widely used in assignments and quizzes, where you do not want students to spend their own time submitting their assignments.

## 2. Advanced Summary by Awesome Table

Your Google Forms Response tab automatically creates beautiful graphics and charts. However, if you want to add a little customization, you can switch to Advanced Summary by Awesome Table add-on. It comes with a useful filter that allows you to filter the response as well. Additionally, there are useful Timestamp graphics that illustrate the response times and answers.

5) On average, how many hours per day played video game lastly? (Estimated) Average: 3.12

7) The type of video games I have played.

# 3. Certify'em

Certify'em allows you to create certifications online through Google Forms. This add-on provides several templates that you can utilize to create professional designed certificates. Of course, you can also make your own. You have the option to email your custom certificate in PDF file format as well.

Another welcome feature of Certify'em is that it automatically saves the latest logs of exam if you need to refer later.
