ATTACHABLE TROLLEY HOLDER SANITIZER (PRODUCT DESIGN)

Design Advisor : MR MOHD HAMIDI ADHA MOHD AMIN

Covid-19 virus has been in Malaysia since 2019 which this virus attacks all countries whereby affected not only in health sector but also in aspect economy .Because of this Covid-19, people are increasingly afraid to do outdoor activities and afraid to shop at supermarkets. Attachable Trolley Holder Sanitizer is suitable for sanitize the trolley holder from germs. This product is use when the user use the trolley when doing shopping at the supermarket. It is easy to attach and dis-attached on trolley holder when refilling the sanitizer liquid.

A descriptive survey and observational techniques were used by enrolling 15 respondents who used sanitizer when going to the supermarket because of covid-19 endemic. This approach is used to obtain relevant information from the respondents on the use of sanitizer when entering the supermarket, touching goods and trolleys. Based on the data collection found that, the majority of respondents do not use or carry sanitizer when going to the supermarket

In the conclusion, it is hope this product can reduce the spread of germ when using the trolley, whereby, it facilitate the user when use provided attachable trolley holder sanitizer.
