May 15th, 2018 had marked the calendar when the Diploma in Pastry Arts students were invited not only to share their knowledge but also the joy it could bring in making pastry products as well as napkin folding.

"It helps to have like-minded individuals who put together their passion and art as part of their teaching"

The engagement was between Sekolah Menengah Kebangsaan Alor Pongsu under the Special Education Program (Program Pendidikan Khas) and Pastry Arts Program of UiTM Pulau Pinang.

The aim of the event was to expose the students to communication skills beyond the scope of the campus, to broaden the knowledge of the university's students and strengthen the relationship among themselves and the students under the special program holistically.

Organizing this kind of event is truly an eye opener as they learn to share the love and joy to the special need individual. It helps to have like-minded individuals who put together their passion and art as part of their teaching.
