CGD473: INTERACTIVITY IN GAME DESIGN

Course Name (English)	INTERACTIVITY IN GAME DESIGN APPROVED
Course Code	CGD473
MQF Credit	3
Course Description	This course will introduce the importance of interaction design for games in the design and developments of things that people use. It will touch on many of the perceptual, cognitive and social characteristics of people, as well as methods for learning more about the people who wants to use the system. There will be discussions on the capabilities and limits of computers and other related systems, and how they affect design and implementation decisions. It also covers the method to design, ways to evaluate and improve the designs, and various stages of an effective design process.
Transferable Skills	Adaptability Technology literacy Teamwork
Teaching Methodologies	Lectures, Studio, Self-directed Learning
