Introduction to Canva was organised by the College of Computing, Informatics and Media Studies UiTM Negeri Sembilan Kampus Kuala Pilah on December 20th, 2022. This webinar was attended by 85 students from the program Faculty of Applied Science and Academy of Islamic Contemporary Studies. Dr Anis Farihan, who is affiliated with Universiti Malaysia Pahang, has been asked to present at this webinar. The webinar has been conducted through Microsoft Team platform where student can join the session through online. However, some students attend physically during the webinar.

Based on the webinar, students can learn to make posters, infographics, presentations, and more with this Webinar: Introduction to Canva. Canva is a simple online tool that lets anyone create beautiful designs without any training. As a result, students have access to a wide range of templates, graphics, and images from which to draw inspiration for developing their unique ideas. Moreover, Canva is a tool that facilitates the creation of aesthetically appealing designs in a short amount of time, saving its users precious study time that can be better applied elsewhere. Additionally, the student participants provided positive comments throughout the entirety of the program.
