ACKNOWLEDGEMENT

Massive, earthshaking thanks to The Almighty for His Blessing so I managed to finished this individual study.

I shall like to express my sincere thanks to lecturer and also my supervisor, Madam Nor Azlina Binti Azmi, for her timely, understanding and guideline that was given to me in fulfil those requirements of this study. She is the person that always guides and inspired me to learn more and more and also spared her valuable time to checking and rechecking my individual study.

Besides, she is patiently helping me in doing this assignment. For his willingness to advise, motivate, teach, his patience, and his friendship, a special debt of gratitude is expressed to her

I am grateful to my respondents which are the post diploma students' in UiTM Kedah among part 3.4 and 5 courses BAS, BIB, BIM and BIS who direct and indirectly helped me in carrying out of this study. I am extremely thankful to my parents, sibling and members of my family who willingly cooperated with me

Last but not least, I am thankful to all those seen and unseen friends who contnubted for completion of this individual study for fulfilling the requirements of the Research Methodology for Library and Information Center subject in one way or the others.

Thank you so much

Sincere Regards,

(JAMATULADAUYAH ABDUL HAMID)

ABSTRACT

Research is carried out in UiTM Kedah among post diploma student'. The purpose of this research is to investigate on the information literacy among post diploma student UiTM Kedah in PSB associated with the relationship between independent variables and dependent variable. The independent variables are divided into information sources, information searching strategies, and digital literacy while the dependent variable is information literacy. This paper adopt a descriptive statistic method and covers the 400 post diploma students of four courses in three faculty are Faculty of Administrative Science and Policy Studies, Faculty of Information Management and Faculty of Business Management from which a sample of 196 respondent is drawn. A questionnaire tagged "Information Literacy of Library of Sultan Badlishah (PSB) User: An Investigation among Post Diploma Students' In UiTM Kedah" is designed to collect data for the paper. The reveals that almost of the respondent have ability in information literacy. The research will enable librarians, administration and staff in University to intensify their efforts to educate students on how and where to search and locate information and how to evaluate and use information to meet their information needs.

Keywords: *Information Literacy, Information Sources, Information Searching Strategies, and Digital Literacy*
