ABSTRACT

History subject in the Malaysian education system is one of the most important subject to learn. It instilled a sense of patriotism and love towards the country. Therefore, it has become a must pass subject in *Sijil Pelajaran Malaysia* (SPM). The Ministry of Education had revised the education curriculum where History subject had been introduced in elementary schools and Standard 4 students being the earliest age group to learn it. However, they are demotivated to learn History lessons due to the conventional pedagogy that focuses textbook as the central educational tool. An intervention was needed and preliminary researches had found out that Augmented Reality (AR) technology can motivate the students to learn and improve the overall quality pedagogy. This study aimed to develop and investigate the integration of the Augmented Reality in History subject to enhance teaching and learning environment from the insights of educators and students in Klang District, Selangor. The research is based on qualitative case study design where educators & expert semi-structured interview with students' focus group were employed. Observation was also used to study the behaviour of the participants in using Augmented Reality (AR) The data were then analysed using thematic analysis in order to identify major themes from the participants perception and understanding. The findings from the study shows that both participants had a positive attitude towards the Augmented Reality (AR) technology. The educators were amazed with the technology stating that it can enhance the pedagogy qualities. The students had stated that they had an increase in motivation when they are using the technology. However, there educators expressed their concerns over the Augmented Reality technology that can rob the focus of the students because it uses smartphones as a platform to access the augmented world. Nonetheless, the educators accepted the Augmented Reality technology because of its benefits. The study had a limitation where the samples were being centralized in Klang District. Therefore, for future research suggestion, this study proposes that a bigger sample from multiple schools in multiple states could be considered in order to improve the research accuracy. It is hoped that this study can contribute to the integration of Augmented Reality in the education system as it proves that it can increase the quality of pedagogical process and the students' motivation to learn.

ACKNOWLEDGEMENT

In the name of ALLAH, The Most Beneficent and The Merciful.

Alhamdulillah, I am thankful to Allah for granting me the strength and courage to complete this thesis. I would like to take this opportunity to express my endless gratitude to my supervisor, Associate Professor Ts. Dr Muhammad Fairus Hj Kamaruzaman for his irreplaceable guidance, wisdom, and support towards this long journey of mine to produce this profound study. I would have never dreamed of finishing this thesis without his help and assistance.

I am deeply thankful towards Universiti Teknologi MARA Shah Alam, Ministry of Education, *Jabatan Pendidikan Negeri Selangor*, and PPD Klang for providing me the opportunity and resources that needed to complete this study.

A special acknowledgement to my beloved and treasured family for all of their unconditional support, love, encouragement. Without them, I could not have been where I am today. Words are not enough to express my gratitude for them.

Last but not least, I would like to thank my friends and colleagues for their contributions and moral boost throughout the completion of my research. Furthermore, thank you to all of the participants for their involvement and unselfishly spend their time in this study.

ABSTRACT	ivv
ACKNOWLEDGEMENT	v
TABLE OF CONTENTS	vvi
LIST OF TABLES	ix
LIST OF FIGURES	x
CHAPTER ONE: INTRODUCTION	1
1.1 Research Background	1
1.1.2 History Subject in Elementary Schools	2
1.1.3 Lack of Motivation to Learn History	3
1.1.4 Augmented Reality as Education Tool in History	4
1.2 Problem Statement	5
1.3 Research Question	7
1.4 Research Objectives	7
1.5 Research Scope	8
1.6 Significance of Study	8
1.7 Operational Definition & Terminologies	9
CHAPTER TWO: LITERATURE REVIEW	11
2.1 Introduction	11
2.2 Introduction to Augmented Reality (AR)	11
2.2.1 Augmented Reality (AR) Development History	13
2.2.2 Augmented Reality Components	19
2.2.3 How Augmented Reality Works	21
2.2.3.1 Marker-Based AR	22
2.3 Augmented Reality in Malaysia	26
2.3.1 Augmented Reality in Malaysian Education	28

2.3.2	Augmented Reality in History Subject	30
2.3.3	Advantages of Using Augmented Reality in Education	32
2.4	Theories and Model	33
2.4.1	Multimedia Elements in Education	33
2.4.2	Cognitive Theory on Multimedia Learning	35
2.4.3	Motivational Theories Design Strategies (Intrinsic & Extrinsic)	38
2.4.4	ARCS Motivational Model	40
2.4.5	Technology Acceptance Model (TAM)	42
2.5	Mobile Augmented Reality UI/UX	43
2.5.1	Environmental Design	46
2.5.1.1	Physical Scenarios	47
2.5.1.2	Spatial Space	47
2.5.1.3	Accessibility	47
2.5.2	Interaction Design	48
2.5.3	Visual & Audio Cues	48
2.6	Summary	49
CHAPTER THREE: RESEARCH METHODOLOGY		50
3.1	Introduction	50
3.2	Conceptual Framework	50
3.3	Research Design	52
3.4	Ethical Considerations	54
3.5	Sampling Design	55
3.5.1	Snowball Sampling	56
3.5.2	Participants	56
3.5.3	Ethical – Consent Form	57
3.6	Mobile Augmented Reality Prototype Development	57
3.6.1	Conceptual Model Framework for MAR Development	58
3.6.2	Augmented Reality History Prototype Development	58
3.6.3	History Textbook for MAR	62
3.6.4	MAR User Interface	62
3.7	Research Instruments	64
3.7.1	Data Collection Methods	66
3.7.1.1	Semi-Structured Interview	66
