ABSTRACT

The rapid and dynamic change of the internet development and usage has enhanced people's lifestyle and consumptions behavior. In line to this, the method of disseminating and collecting information has also been enhanced from traditional sources to the online sources. Religious activities are included with no exception. The emergence of computer technologies including WWW and other related services provide a new insight for the people to acquire knowledge on Islam and Muslims. Now, there are numbers of Islamic websites found over the Internet and most of the sites are being established in order to deliver the message of Islam and to disseminate the Islamic teachings and practices. However, apart from websites, weblogs are another tool in the Web 2.0 applications that is gaining acceptance as a medium for improving the process of knowledge sharing. Hence, through this situation, the Islamic communities grab the opportunity to introduce the Islamic weblogs as a source to enrich the Islamic knowledge. Recently, there are growth in the number of Islamic blogs or weblogs found. Previous studies highlighted that, despite Judaism, Christianity, Hinduism and Buddhism, the use of blogs as a part of medium for religious preaching has also been widely recognized by Islam. The problem of study issues on credibility and authenticity of the content remained questionable. Past studies revealed that majority of the content of the websites and weblogs are lack of authority and credibility. Thus, to address this gap, this study attempted to explore the features and quality that an Islamic weblog should have which then help to influence the users' satisfaction and trust and lead to the continuance used of weblogs. To meet this aim, a quantitative methodology was designed to discover the impact of content factors and Islamic factors towards the continuance used of these Islamic weblogs. The data was analyzed to evaluate and determine the overall mean for Credibility is (3.92), content objectivity is (3.76) and content reliability is (3.77) which regarded that the respondents agreed that credibility, objectivity and reliability of the Islamic weblogs are important. Meanwhile, the overall mean were presented for Islamic Identity (3.86), Islamic Services (3.55), Islamic Symbols (3.86) and Ethical Values (3.98) measure the Islamic factors. The study showed that both content-related and Islamic-related factors influence the continuance used of Islamic weblogs indirectly. The analysis revealed that Confirmation and Perceived Usefulness mediated the relationship between both content and Islamic factors towards the continuance used. This study contributed both theoretically and practically. The study addressed part of the gap found the past literatures by enriching the theoretical ideas of continuance used of the technology by broadening the measurement model. Several other key factors that influenced people to continue using the Islamic weblogs in sharing and collecting information pertaining Islam are being identified. Practically, this study helps to increase the awareness among the Muslims regarding the importance of credibility and authenticity of the Islamic weblogs by proposing a proper guideline.

ACKNOWLEDGEMENT

Firstly, I wish to Syukur Alhamdulillah and thank God for giving me the opportunity to embark on my PhD and for completing this long and challenging journey successfully. My gratitude and thanks go to both my supervisor Associate Professor Dr Mohd Shazili Bin Shahibi and Associate Professor Dr Hj Mohamad Noorman Bin Masrek for his excellent guidance, patience and providing me an excellent feedbacks in doing my thesis.

My appreciation goes to the Mufti Wilayah Persekutuan Dato' Dr Zulkifli Albakri & Jabatan Agama Wilayah Persekutuan (JAWI) that provided the facilities and assistance during sampling. I would like to thank indeed a huge source of strength, courage dedicated to my father Hj Ibrahim Bin Mohd Amin, my mother Madam Hatiah Binti Ramli, my lovely wife Madam Diana Maryani Binti Mohamad Zahir with both my son Muhammad Darwisy Harith & Muhammad Daniel Hakem and all my siblings Nurhafiza, Nurhasimah and Muhammad Sayuti for support mental physical, encouragement during my studies.

Finally Special thanks to my colleagues and friends for helping me with this thesis and I would like to thank my colleague Dr Izati, Dr Norizan, for sharing knowledge and expertise in guiding me in familiarizing with AMOS. Indeed a huge of courage and joy for me has been my friends who provide me with meaningful life of my postgraduate study, they are Dato' Hj Mohd Faizal Daud, Ms Aina, Ms Aisyah, Ms Fazwaney and others whom their names not mentioned here. This piece of victory is dedicated to all of you. Alhamdulillah

Mohd Nurul Hafiz Bin Ibrahim

Hj Ibrahim Bin Mohd Amin

Hjh Hatiah Binti Hj Ramli

Diana Maryani Binti Mohamad Zahir

Muhammad Darwisy Harith

Muhammad Daniel Hakem.

CONFIRMATION BY PANEL OF EXAMINERS	ii
AUTHOR'S DECLARATION	iii
ABSTRACT	iv
ACKNOWLEDGEMENT	v
TABLE OF CONTENTS	vi
LIST OF TABLES	xiii
LIST OF FIGURES	xvi
LIST OF ABBREVIATIONS	xii
CHAPTER ONE: INTRODUCTION	1
1.1 Introduction	1
1.2 Background of the Study	2
1.3 Problem Statement	9
1.3.1 Lack of consensus on the features in accessing the Islamic weblogs	9
1.3.2 Issues on credibility and authenticity of the blogs' content	11
1.3.3 Lack of standard guidelines in designing a good Islamic weblog	12
1.3.4 Limited Number of Studies on Cyber Islamic Environment in Malaysia	13
1.4 Research Questions	15
1.5 Research Objectives	15
1.6 Significance of the Study	16
1.6.1 Identify the features required in accessing Islamic weblogs	16
1.6.2 Overcome the issue of credibility, reliability authenticity of Islamic Weblogs	17
1.6.3 Islamic weblogs will remain standardized	18
1.7 Scope of the Study	18
1.8 Structure of the Thesis	20
1.9 Chapter Summary	22

CHAPTER TWO: LITERATURE REVIEW	22
2.1 Introduction	22
2.2 World Wide Web (www)	23
2.2.1 Web Quality	23
2.2.2 System Quality	26
2.2.3 Information Quality	29
2.2.4 Service Quality	31
2.3 Web 2.0	32
2.3.1 Weblogs	35
2.3.2 Blog Quality	36
2.4 Types of Weblogs	38
2.5 Anatomy of weblogs	42
2.6 Religion and the Internet	47
2.7 Islamic and the Internet	49
2.8 Islamic Weblog	50
2.9 Previous Studies	57
2.9.1 Lu and Hsiao Model (2007)	65
2.9.2 Aliyu et al. Model (2013)	67
2.9.3 Chen et al. Model (2012)	68
2.9.4 Liao et al. Model (2013)	70
2.9.5 Chen et al. Model (2015)	71
2.9.6 Bhattacharjee Model (2001)	73
2.9.7 Shiau and Luo Model (2010)	74
2.9.8 Shiau, Huang and Shih Model (2011)	75
2.9.9 Aliyu, Mahmud & Tap Model (2013)	76
2.9.10 Shiau & Chau Model (2012)	78
CHAPTER THREE: THEORETICAL REVIEW AND THEORETICAL FRAMEWORK	77
3.1 Introduction	77
3.2 Related Theories	78
3.2.1 Theory of Reasoned Action (TRA)	78
3.2.2 Theory of Planned Behaviour (TPB)	80
3.2.3 Unified Theory of Acceptance and Use of Technology (UTAUT)	82
