ABSTRACT

The study entitled "Farmers Organization: Discover the major factor that lead entrepreneur fail". This study was conducted to identify the major factors that lead entrepreneur fail. Besides that, this study also will analyze factors that contribute to the major factors failure. This study conduct due to the farmers' members of PPK that involve on entrepreneurship that fail in entrepreneurship was increase in every year. So this study will conduct so that corrective action can be taken to overcome the issue.

Entrepreneur, academic and researcher agree that entrepreneurship is a vital route to economic advancement for developed and developing countries.

Entrepreneur plays an importance role towards Malaysia growth economy. Thus, Ministry of Economic Development Malaysia 1995 gives priority on entrepreneurs' development by giving support mechanisms and policies such as physical infrastructure, funding and technical advisory services. Badan dan Kementerian Perancangan Malaysia Perancangan dan Pembangunan Nasional (MPNN) on small Malaysia plan also focus more on developing and produce entrepreneur companies and can compete with global economy. It shows that the government has give support on encouraging more entrepreneurs in Malaysia.

In other aspects, the effort of the government in economic development can be seen through their giving incentive and loan to the entrepreneur provided by the government agencies. One of the government agencies is Lembaga Perubatan Pertanian that provides agriculture support fund and loan to help the farmers to get involve in entrepreneurship activities. However, even though Malaysian government has given its support to the entrepreneur but there are still various of the entrepreneurs fail to become an entrepreneur.

This can be proof that the law Bumiputera equity reserve set at 12.9 percent in 2005, falling short of the target 30 percent equity ownership by 2020.
