

# An academic visit by San Pedro College's School of Allied Health Science Delegation

The Faculty of Pharmacy at UiTM was honoured to host a delegation comprising 13 esteemed educators and administrators from San Pedro College's School of Allied Health Sciences (SAHS) on July 25th, 2023. Led by Prof. Fatima May R. Tesoro, Dean of SAHS, the delegates' visit aimed to forge new paths of international collaboration in various areas including academic, research, clinical activities and health technology.

The visit commenced with a welcoming session by Dr. Norkasih Ibrahim, Deputy Dean of Industry, Community, and Alumni Network (ICAN). This session provided an avenue for sharing UiTM's academic operations, innovations, and research ventures, laying the foundation for a comprehensive exchange of ideas and experiences. Engaging discussions took place between representatives from both institutions, exploring potential collaborations such as student exchange programs in digital health training and interdisciplinary research projects. These collaborative efforts hold the promise of transcending geographical boundaries and advancing the realm of healthcare education.

A benchmarking session followed, offering the SAHS delegates a glimpse into UiTM's impressive facilities, including the Tele-pharmacy laboratory, clinical simulation laboratory, analytical unit, and Laboratory Animal Facility and Management (LAFAM). The delegation's keen interest in Tele-health operations harmonized seamlessly with UiTM's emphasis on technology-driven healthcare solutions.

UiTM envisions a lasting partnership with SAHS, marked by internationalized internships, collaborative research endeavours, and an interdisciplinary approach to academia. This visit represents a stepping stone toward nurturing well-rounded professionals capable of addressing complex global challenges.

In conclusion, SAHS's visit to UiTM's Faculty of Pharmacy has not only redefined educational and research boundaries but also illuminated a path of shared exploration and growth. The Faculty of Pharmacy looks forward to the promising outcomes of this collaboration, which is poised to yield innovative solutions transcending borders, and enriching the landscape of healthcare education and practice.
