

FACULTY OF PHARMACY VIRTUAL ONLINE POSTGRADUATE ENGAGEMENT DAY 2023

The Faculty of Pharmacy organised a Virtual Online Postgraduate Engagement Day Programme, which was successfully conducted on August 17th, 2023, utilising the platforms of WEBEX and YouTube live. The event, led by Dr. Mashani Mohamad, aimed to provide prospective local and international postgraduate students with valuable insights into various programmes and research opportunities at the faculty. This is in parallel with the UiTM vision of emphasising research towards becoming a globally renowned university (GRU). The event commenced with a warm welcome address by Professor Dr. Kalavathy Ramasamy, the Deputy Dean of Research and Innovation, Faculty of Pharmacy, UiTM Puncak Alam, who introduced the faculty's mission and commitment to academic excellence. Subsequently, Associate Professor Dr. Meor Mohd Redzuan Meor Mohd Affandi, the Head of Postgraduate Programme, delivered a presentation encompassing the array of programmes offered, the structure of these programmes, the admission procedure, and success stories. The event also included presentations by the heads and representatives of the Pharmaceutical Life Sciences, Pharmacology and Pharmaceutical Chemistry, Pharmacy Practice, and Pharmaceutics departments. The purpose of these presentations was to introduce the research themes and potential supervisors to the attendees. To enthuse and motivate prospective students, Mr. Yazid Zaki, the president of the Pharmacy Postgraduate Society, offered a captivating overview of the dynamic academic and social dimensions of postgraduate life at our esteemed faculty. The organisers also curated a selection of videos, featuring immersive glimpses into our cutting-edge research centres, virtual faculty tours, state-of-the-art facilities, laboratories, and abundant resources accessible to postgraduate students.

As the programme drew to a close, an engaging and interactive Q&A session was held, providing attendees with a valuable opportunity to delve deeper into the intricacies of the postgraduate experience within our faculty.

As a conclusion, this programme successfully increased the visibility of the faculty to attract postgraduate students and initiate research networks and opportunities. The feedback that was obtained was overwhelmingly positive, with many appreciating the informative sessions and the opportunity to connect with faculty and alumni. A few potential students suggested that future sessions can include short discussions with potential supervisors and on-site laboratory visits. We extend our gratitude to all attendees, speakers, and committee organisers who contributed to the success of this event. We look forward to welcoming all interested candidates to our postgraduate community and continuing our tradition of academic and research excellence.
