## **ABSTRACT**

The purpose of this study was to measure the level of employee's knowledge and awareness on computer virus issues in District and Land office of Temerloh administration department. This study also uses to identify the current problem faced by the employees. Other that, this study need to identify how the computer virus scattered within the offices. The questionnaires was using as a method in conducting this study. The questionnaires has been distributed randomly to the respondent who working in administration department in District and Land office of Temerloh. About 48 respondents have answer the questionnaires distribute. In order to make some improvement to the employees in District and land offices of Temerloh, some suggestion and recommendation was stated.

## ACKNOWLEDGEMENT

Assalamualaikum WBT., praise to Allah the almighty for giving us health and strength to complete this research project. Firstly, thanks to all members in this group for the cooperation, money and time that we have sacrificed for this research project. As we know, teamwork and commitment leads us to come out with the best rather than do it alone.

Secondly, we would like to express our special thankful to Encik Shamsul Annuar Bin Hj. Sulaimin for his supports, encouragements and guidance during the process of completing and preparing this research projects. Besides, we also wish thank to Tuan Hj. Abdul Razak Bin Said for his guidance and advice for this research.

In addition, a bunch of thanks to respondents which categorized from administration department of District and Land of Temerloh for their willingness in helping us collecting data for this study and answering the questionnaires for this study.

Last but not least, we also like to extent this gratitude to our parents and individual who was involved directly and indirectly for their supportive and encouragements to make sure we have motivated to accomplish this study.
