DIPLOMA OF COMPUTER SCIENCE

ACKNOWLEDGEMENT

In the name of Allah, the most gracious and the most merciful. Without Him, we can't finish up our practical training at Cosmopoint Sdn Bhd Sungai Petani, Kedah. During our practical, I've learned and done lots of things and sometimes we faced so many problems in getting through with our project. But with help from others, we have completed all the work given by the organization on time.

We want to take this chance to deliver our thanks to all Cosmopoint Sdn Bhd Sungai Petani, Kedah staff, who had given their support and trust for us during our training.We greatly thanks to :-

- Pn Zunaida
- Cik Nor Azwa
- En Hasril Anuar
- Cik Mazliyana
- Cik Syartini
- Cik Maslina

We also want to thanks Pn Siti Rafidah from UiTM Merbok for her time to visit us at Cosmopoint Sdn Bhd Sungai Petani and for her advice. For our parent and all our siblings, thanks a lot for your support, understanding and also for grown up with us. Everything that you've done is very meaningful for us in completing my practical. Thanks a lot.

Last but not least, we would like to thanks all our lecturers in Computer Science Department of UiTM Perlis, our friends, our work members and all the individuals who are not mentioned here because they help us a lot in completing this system. May Allah bless all of us.

1.0 INTRODUCTION

1.1 Practical Training Background

The Faculty of Information Technology and Quantitative Science (CS110), Mara University of Technology (UiTM) has made it compulsory for each of their final semester students to carry out with practical training at any organization set by the faculty or by the student's preferences. Each practical trainee will undergo a 4 months or at least 16-weeks of training scheme at their selected organization before going back to nearest UiTM that have CS110 faculty to present their work.

1.2 Practical Training Objectives

The objectives of the practical training module is to expose all the students of Diploma in Computer Science on how to practically implement all the theories that have learned in the class and enhance their ability to use their skills. The objectives of the practical training are to expose the students on how to solve the problems that will occur in Data Processing Department and to train the students to familiarize themselves with the working environment and how to communicate with their colleagues.
