Assalamualaikum w.b.t...In the name of Allah, the Most Gracious, Most Merciful...

Firstly, thanks to the Almighty Allah SWT for giving us an opportunity to complete my practical training system project on time. I would like to extend my appreciation to many people who helped me in the completion of this project especially En Mohd Hafiz B Khamis as my supervisor and Pn Fouziah Osman for guide me in completing this system

Last, but certainly not least i hope this project will be accepted and can be used for future generation. I had tried my best to accomplish it although we had to make several difficult decisions and face difficult situation. Furthermore, this project was designed based on user requirement.

Thanks again for all person who always be in our side when we need them. Their contributions and personal sacrifices are truly appreciated and will be well remembered.

Wassalam....
