▶ Custom Tray Fabrication	60
▶ Teeth Modification and Preparation	69
▶ Border Moulding and Master Impression	83
Chapter 5: Master Cast Fabrication	93
▶ Beading, Boxing and Pouring	93

Preface

This book has been written, with the aid of photographs to provide useful and updated instructions primarily for the undergraduate dental students in the Faculty of Dentistry, Universiti Teknologi MARA. We also hope it will be of interest and value to practising dentists.

The chapters in this book will serve to standardise and to introduce basic principles and the fundamentals of the fabrication of removable partial dentures. We also hope that this book will provide the dental students with sound basic principles on which, successful clinical skills can be built on.

We also welcome constructive ideas and feedbacks from our colleagues, which would be most helpful in improving future editions. This book is strongly influenced and based on the practices and teaching method at Faculty of Dentistry, Universiti Teknologi MARA and therefore is oriented towards the Malaysian reader. For this, we beg the indulgence of our overseas readers.

Acknowledgement

We would like to express our utmost gratitude to the numerous contributors of this guidebook. For the immeasurable time and effort that has gone into the preparation of this guidebook. All this, despite their hectic work schedule and primary commitments. We would also like to acknowledge the laborious time and effort put in by the dedicated group of technicians especially Puan Norfazillah Zaini and team. We also wish to express our thanks to our students, Dr. Maizatin Fitrah Akbar, Nurazimah Ahmad Aziz and Muhammad Fakhrudin Zul for their unparalleled devotion and sheer enthusiasm in the making of this guidebook. And to Dr. Nurul Whahidah Azmi, we thank you for your scrupulous attention to details, which proved handy in the form of proofreading. We would also like to thank Encik Mohd Yusof Taslim for his unsurpassed patience and cooperation, which have been tested time and time again throughout the making of this book. Last but not least, we would like to thank our dearly beloved Prof Dato' Dr. Mohamed Ibrahim Abu Hassan for his neverending support, and for continuously pushing us to put forth our best.
