1.1 INTRODUCTIONS

Background of Study

Comics are derived from Greek word KOMIKOS mean to pertaining comedy. And KOMOS was from Latin word means graphic medium in which images convey a sequential narrative. The term of comic commonly used to describe pictures and the predominance pictures over the words.

Comic is a medium or platform to finding the humour, releases stress, and giving a lot of explorations imaginative and creativity for kids and teenagers. Sometimes, among of children has unlimited interesting and too much obsess reading the comic until they forget everything especially homework. Most people in Malaysia, Comic being a tool or medium to release the stress and it commonly read if they have time. From the Malaysians perspective , comic is a stuff could bring negative impacts for children because mostly of them opinion based on negative impacts such as wasting time, brings bad impacts based on character such as fighting, crazy humours and the word that are used is too rude and not following the standards Languages of Malay. It found in many magazines in Malaysia such as Gila-gila, Ujang, Apo, Under 18 and many more. Mostly of parents are not supporting for comic industries in Malaysia and they easy to attracts to buy educations book with many word to read

Comic can be found into two categories which are Daily comic and Graphic Novel. Daily comic is a combinations word and image to bring a story. Usually it's coming with series and many issues. It can be found on Manga from Japanese comics such as One piece, Naruto Shipuden and many more. Many people misunderstanding about comic and Graphic novel which is content look same but Graphic novel has their identity but it comes with a lot of story even its issues more than Daily comic. It can be found in Marvell comic from United
