## **ACKNOWLEDGEMENT**

I would like to take this opportunity to thank you everyone that helping me to complete this research study. It is impossible to complete this research study without support and help of many individuals.

My gratitude goes to the Almighty Allah S.W.T for his blessings of the inspiration necessary that have allowed me to successfully complete this research study. Without his blessing this would not be made possible. Not to forget my advisor, Madam Suhailah Binti Kassim for her continues support and guidance through the period of the research study. I also would like to thank you her for the time that she spends despite having other commitment. She keeps guiding me in conducting this research study.

Not to forget, I would also like to give credit to my supervisor during my internship period, Encik Zulkifli Bin Dinyati from Ranhill Syarikat Air Johor (SAJ). He always helps and guides me during my internship period. Not only that, Ranhill Syarikat Air Johor staff also very supportive and helpful and I love to work with them. Last but not least, thank you goes to my parents for the support that they had given. To my friends and classmate that keep encourage me to finish this project paper.

Finally, for those involve directly or indirectly in completing this research thank from the bottom of my heart.

## **ABSTRACT**

Employee performance is a key determinant of success or failure in a company. Employee who did not perform well will give bad effect towards organization. Organization needs to ensure that employee performance and job satisfaction become a matter of necessity to every organization. The purpose of this research to investigate factors that influence employee performance at Ranhill Syarikat Air Johor (SAJ). Four independent variables in this study are organizational structure, technological changes, organizational leadership and organizational culture. 56 questioners were distributed and only 57 questioners were return. The data collected then will be evaluate by using Statistical Package for the Social Science (SPSS). Data collected from SPSS such reliability analysis, frequency distribution, descriptive analysis, Pearson's correlation analysis and multiple regressions. The result indicated that only organizational culture has positive impact towards employee performance while the rest three independent variables which are organizational structure, technological changes and organizational leadership does not have positive impact towards employee performance

Keywords: Employee performance, organizational structure, technological changes, organizational leadership and organizational culture.
