ACKNOWLEDGEMENTS

“In the name of ALLAH, the Most Benevolent and Most Merciful”

Alhamdulillah, I would like to thank to Allah the Lord Almighty without whose blessing I will not have successfully completed this research. It is almost impossible for me to complete this task after going through much hardships.

I would like to extend my gratitude to my advisor, Puan Suraya Hamimi Mastor, for her professional and untiring guidance and patience in imparting knowledge. Indeed, gaining knowledge is not easy, and for that, I am deeply indebted to her.

I also would like to take this opportunity to record my greatest gratitude to Dr. Ahmad Azman bin Mohd Anuar as my second examiner.

I wish to take this opportunity to extend my special thank and warmest appreciation to all of my colleagues at Melaka International College of Science and Technology (MiCoST) for generously providing me with the information that is needed for my thesis completion. My gracious and special thank would be dedicated to my supervisor both in Human Resource Department, Puan Norzafirah Suimi and Registration Department, Puan Surainey Shari. I would like to convey my appreciation to them and all the staff for giving me the opportunity to learn and gaining experience there, also their participation toward the completion of this report.

Finally, an honourable mention goes to my lovely backbones, family and friends for their ideas, support, and encouragement towards the completion of this proposal. Without help from those mentioned above, I would face the difficulties in completing this proposal.

ABSTRACT

This study examines the motivational factors of social motives, career motive, belonging motives, and self-enhancement motives that encourage student participation in volunteering programs. Questionnaire has been used as a research instruments were used to obtain data. A total of 214 questionnaire were distributed to the respondents at Melaka International College of Science and Technology (MiCoST). The sample of study and data was then being analysed using the Statistical Package for Social Science (SPSS). The tests involved are Descriptive Analysis, Reliability Analysis, Pearson Correlation and Multiple Regression Analysis. The multiple regression analysis result showed that there is significant relationship between all the determinant in the study which are Social Motives, Career Motives, Values Motives, and Self-enhancement Motives with student participation in Volunteering Programs. At the end of the study, researcher proof that elf-enhancement motives influence student participation in volunteering the most.
