

EXECUTIVE SUMMARY

This executive summary presents an overview of my internship experience in the accounts payable team at DNex. The report highlights the key activities, learning outcomes, and contributions made during the internship.

During my internship at DNex in the accounts payable team, I had the opportunity to gain practical experience in financial operations, invoice processing, and vendor management. I actively participated in the day-to-day tasks of the accounts payable department, which included reviewing invoices, verifying documentation, and ensuring timely and accurate payments.

My contributions to the accounts payable team included supporting month-end closing activities by processing debit notes and executing payroll reports from the human resource department. I also participated in cross-functional projects, collaborating with other departments to streamline procurement processes and improve communication with vendors.

Overall, this internship in the accounts payable team at DNex provided me with valuable insights into financial operations and vendor management. It allowed me to apply theoretical knowledge to practical scenarios, sharpen my attention to detail, and develop strong analytical and communication skills. I am grateful to the accounts payable team at DNex for their guidance and support throughout this internship.

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to all those who have contributed to the completion of this project. Their support and guidance were instrumental in making this endeavor possible. First and foremost, I extend my heartfelt appreciation to my advisor, Dr Aqilah Nadiah binti Md Sahiq whose invaluable insights and encouragement propelled me forward and helped shape the direction of this work.

I am also deeply thankful to my colleagues at Dagang Nexchange Berhad and team members who collaborated closely with me throughout this journey. Their camaraderie and collective efforts were vital in overcoming challenges and achieving our shared goals. I am indebted to the experts and professionals who generously shared their expertise and knowledge during interviews and discussions. Furthermore, I want to acknowledge the support of my family and friends who provided me with constant encouragement and understanding during the ups and downs of this endeavor.

COMPANY BACKGROUND

Established in 1970, Dagang NeXchange Berhad (DNeX) traces its roots back to its founding as TIME Engineering Sdn Bhd, initially focusing on the trading and distribution of welding products. Over the past 50 years, the company embarked on a remarkable journey of continuous learning, honing its strengths, and developing its skills to establish a unique position in the market. With a strong emphasis on technology, DNeX takes pride in its capacity to engineer innovative solutions based on extensive technical knowledge and industry expertise.

The company has evolved into a globally recognized technology company, diversifying its operations and expanding its reach across various industries. Today, as Malaysia based investment holding company, DNeX operates across three key business segments, namely Technology, Energy, and Information Technology (IT). With a strong focus on providing customized services, solutions, and infrastructures, each offering is carefully engineered and led by industry experts.

DNeX operates primarily in Malaysia but has a growing presence internationally as well. Its corporate headquarter is located in Menara Dagang, Cyberjaya, Selangor, Malaysia. Moreover, the company stands out as a leading semiconductor foundry in the Technology sector, while also establishing a reputable presence in the Energy industry.
