ACKNOWLEDGMENT

Alhamdulillah apart from my effort, the success of this study depends largely on the encouragement and guidelines of many others. I would like to take this opportunity to express my gratitude to the people who have been instrumental in the successful completion in this assignment.

First and foremost, I would like to show my greatest appreciation to my lecturer of Research Method (OSM601), Madam Dr. Mas Anom Binti Abdul Rashid for the valuable guidance and advice for this project. She inspired me greatly to work in this assignment. I also would like to thank her for showing me some example that related to my study. Other than that, I would also like to thank to my supervisor of the reseach proposal which is Sir Shaiful Azlan Bin Abdul for his guidance and motivated me to complete this assignment. Without their inspiration and motivation I would not complete this assignment successfully.

Finally, an honorable mention goes to my families and friends for their understanding and supports on me in completing this assignment. Without helps of the particular that mentioned above, I would face many difficulties while doing this.

ABSTRACT

The purpose of the study was to identify the leadership styles and level of influence leadership styles towards the employee's performance at Hospital Raja Perempuan Zainab II (HRPZ II). The leadership styles categorized to three which are transformational leadership, transactional leadership and laissez faire leadership styles. Meanwhile the ranking for employee's performance was measured based on the scale high, medium and lower. The subjects were the staffs of HRPZ II among non-clinical support staff which as a sample population. The data collected then analyzed using SPSS software. The result found that all the variables were reliable and significantly related between two variables. The researcher had recommended some suggestions at the end after concluded the result.
