ACKNOWLEDGEMENT

Alhamdulillah, first of all, I would like to thank to Allah s.w.t for his blessings to me to finish this study completely. I am proudly to express my greatest appreciation neither to my advisor, Madam Mawarti Ashik binti Samsudin and thanks to my research lecturer Madam Masanom binti Abd Rashid for giving a lot of guidance and moral support in process to complete this study.

Then, I am grateful to the Malaysia Department of Insolvency (Mdl) and respondent as well, who gave their support and full commitment to fulfill the questionnaires and give good cooperation toward achieving my goals to finish my study especially for keeping to the deadlines.

Not to forget to my supervisor during practical training, Madam Zahaniza binti Kosnin for her full cooperation and a lot of guidance in providing relevant ideas, information and assisting me in completing my practical training.

I would therefore like to express my heartfelt thanks to my family, especially to my parents and colleagues who have participated in giving positive comments and supporting words in helping me to complete this task. Their contributions truly appreciated and will be well remembered.

ABSTRACT

The present study examined associations between employees' and their job performance in Malaysia Department of Insolvency, Putrajaya. Job performance and the workplace is related to employees' for many years. Particular consideration that might affected employees' job performance was been identified including their distance from home to workplace, workplace, and vehicle, condition. Additionally, the researcher are more focus to increase productivity, reduce absenteeism, and maximize the motivation value toward employees' in Malaysia Department of Insolvency. A study of job performance of employees' in Malaysia Department of Insolvency will give many input and information to the researcher. The data were analyzed using SPSS version 20.
