ABSTRACT

The purpose of this research is to identify the relationship between relationship between green office environments toward employees' satisfaction At Tenga Nasional Berhad, Jengka. This research intended to investigate the relationship of green office environment in the workplace, which about the air and noise, view and lighting and also about the friendly that can influence employees' satisfactions in the workplace. The sample size use for this study is 101 and from 101 of populations, only 55 sample size used for the actual survey based Krejcie & Morgan table for determining sample size from a given population. The questionnaire has been distributed to the random staff at TNB Jengka, Pahang and about 52 respondents have answered the questionnaires distributed. Social Science Software (SPSS) version 20 is used to analyze the results collected. Based on the finding of this research there is a significant relationship between air and noise in the workplace towards employees' satisfaction.. In order to make some improvement to the employees in Tenga Nasional Berhad, Jengka, Pahang, some recommendation for this research and recommendation for the future research was stated.

ACKNOWLEDGEMENT

First of all, I would like to express my gratitude to all those who gave me the possibility to complete this research especially to Allah S.W.T because without His blessing, it is possible to me to complete this research.

Next, I want to express millions of thanks to all lecturers for their guide and willingness especially to my research supervisor, Mrs Maisarah binti Ishak who gave me brilliant ideas to commence this research. Thanks you for her supports and advice given that enable me to complete this research on time.

My sincere thanks also goes to my industrial training supervisor, Mrs Saliza Binti Selamat, Financial Administrative Assistant, because of his willingness to help me even it is hard for me to find materials and data related to my research.

I am deeply indebted to my parents who help and always support me. Also to my friends, big thanks from me for stimulating suggestions and encouragement helped me in all the time of completing this report.

Last but not least, I would like to say millions of thanks to all of the respondents because of their willingness to spent their time to answer the questionnaires and also to those who contribute their helped and indirectly in order to completing and making this research.
