
THE APPLICATION OF FINISHING ON WRITING TABLE

By

Imnizan binti Ismail

**Final Project Paper Submitted in Partial Fulfillment for the Degree of Bachelor of
Science (Hons) in Furniture Technology, Faculty of Applied Science Universiti
Technologi MARA**

May 2003

ACKNOWLEDGEMENT

Be all praises for the almighty Allah, the most merciful, for giving me the utmost strength to have this project completed successfully. I wish to express my deepest gratitude to my mentor of this project, En Said bin Ahmad for his guidance, advice, encouragement, constructive critics, supportive ideas and help rendered throughout the progress of this project.

I would like to acknowledge the technical advices given by Assoc. Prof. Dr. Ashari Abdul Jalil and En. Kamarulzaman bin Nordin from UiTM Shah Alam for their efforts and critics during the course of this work.

A special thanks to my entire friend especially my classmate in Bach. Sc. (Hons.) Furniture Technology, part 06 for their tremendous efforts in helping me with the data analysis, ideas and cooperation during this project.

Special appreciation extended to my fiancée , _____ which have me the inspiration, support and untiring prayers. Not forget to my parents, all family members, specially my sister and to all my housemates and friends, for their unending love and prayers had really made me a successful student.

ABSTRACT

THE APPLICATION OF FINISHING ON WRITING TABLE

By

IMNIZAN BINTI ISMAIL

May 2003

The table was designed especially for writing. This is an attractive design from the view of its functions, material used and the shape of the table. It's also suitable for computer or study table. The material used is most popular in furniture industry nowadays, and the curves of the table leg make the table look beautiful and the finishes used will make the appearance to look beautiful and attractive product. For the surfaces of the tabletops, plastics laminate (Formica) are used. The material is thin and obtainable with simple surface patterns. This finishes will protect and give durability of the surface coatings. The table is designed to make the product unique from others, which are easy to set up and store.
