ACKNOWLEDGEMENT

First of all, Alhamdulillah and all praise to Allah S.W.T for giving me a good mental and physical strength to complete this research paper from the beginning until the end. I would like to extend our deepest appreciation to my respected advisor, Dr Ramesh A/L Krishnan for his guidance, ideas, supervision, invaluable cooperation and support in the period of completing this research paper. Without his support, comments, and ideas, I would not be able to complete this research paper on time.

In addition, I would like to thanks to all staffs in Majlis Perbandaran Muar (MPM) ,Johor for their support and cooperation in providing the relevant information and willingness to spend their time for this research paper. This research paper would not completely finish without their willingness to help.

Finally, I would like to thank to everyone who assisted me during the period of this research paper. To our family who always gave support and encouragement, friends and those who involved in this report directly or indirectly. I would like to apologize for any mistakes and weaknesses in this research. Thank you to all and may Allah S.W.T. bless all of us.

ABSTRACT

The employee performance is a continuous problem or issues that always be a major issues of the employee in company. This is not easy to motivate employee to give a high level of performance while do their work in an organization. Purpose of this study is to identify the factor that influences employee task performance among employee at Building A and B Majlis Perbandaran Muar (MPM) Johor. The researchers have chosen Majlis Perbandaran Muar to represent this study. Researcher have listed two variables which are work environment and training and development as independent variable. Researchers have been distributed 102 sets of questionnaire to the respondent in Building A and B at Majlis Perbandaran Muar (MPM) Johor. This study discussed the factors that influence the employee task performance in MPM. The findings and analysis were made based on Statistical Package for Social science (SPSS) version 22.0 to analyse the data.
