ABSTRACT

DOUBLE-SPACE COFFEE TABLE FOR HOME FURNITURE

The study of furniture was critical, to complete this project and guarantee the understanding of what is needed to do base on the project objectives. The objectives of this study are to create a design of Double-Space Coffee Table for Home Furniture by using pine wood as a raw material and to evaluate the customer satisfaction on the double-space coffee table design through questionnaire survey. The globe is presently faced with a lot of important challenges as a result of demographic expansion and resource constraints. Since to overcrowding in the living region, such as a major city, people are forced to live in small spaces such as flats or apartments. As a result of all of these difficulties, double-space coffee table furniture has evolved as one of the solutions to the problem of space efficiency. Double-space coffee table integrates many functions into a single piece to save space consumption in a house or room while also can be use outdoor by maximize or using the function that has on this product. To overcome these issues, a design for a double-space coffee table will be produced for this research. The chosen responder will be given a set of questionnaires to provide feedback and comment based on the design provided. According to the study's results, respondents agree on the factors of material, design, marketing, and product satisfaction. This study's objective has been accomplished. Many responders approved of the product design.
