## EXECUTIVE SUMMARY

My amazing six-month industrial training journey began at HZHY Enterprise. This business specializes in catering and canopies. In addition, they offered additional services such as event management and hall rental.

"HZHY Enterprise" boldly and confidently positions Bumiputra as an economic competitor in the Northern Region and throughout Malaysia. With years of experience running small and large elections, large gatherings for VIPs, government and private bodies, and a variety of banquets, the company is confident that it can pull off any event. HZHY Enterprise has a hall that is open to the public and is available for hire for specific events.

Industrial training at HZHY Enterprise helps me improve my soft and hard skills. The things I learn at this catering company will help me in the future. The industrial training makes me more aware of the challenges I will face one day. The knowledge I learn during the class can be used during my jobs. Catering and the canopy sector are not easy, and I believe that if we want to stay in these fields, we must have a strong mental and physical foundation.

COVID-19 has also become a problem at HZHY Enterprise because many events need to be postponed during the MCO. That problem makes HZHY Catering stronger to overcome these issues because they want to give the best service they can. Their staff works together to make sure that they can fulfill their customers' needs.
