## **EXECUTIVE SUMMARY**

Faculty of Business Administration at Universiti Teknologi Mara (UiTM) have made the subject of Industrial Training (MGT666) compulsory for all final year students before we complete our study. This subject is a pre-professional job that will give experience for students on the real working experience at an organization. Thus, the students will be exposed with the actual working environment and job scope. Besides, it helps students demonstrate their knowledge, skills and abilities while doing the industrial training.

This report is about my internship programme, which I completed for 24 weeks beginning on 29th August 2022 and ending on 10th February 2023. I did my industrial training at Dinamiq Agency, Perlis.

For subject MGT666's industrial training, I must prepare a report on my industrial training that is analysing Dinamiq Agency's internal strengths and weaknesses, as well as the company's external opportunities and threats.
